### QURANIC FOUNDATIONS TO HEALING

As Quran has been sent for our guidance (2:1), clarification (15: 1) and correction (14: 1), we have designed a weekend Retreat that centers on Quranic guidelines and mandates related to healing work. It is primarily for those working in Health Care or those preparing to enter the healing field, who are seeking to reorient healing structures and practices according to Islamic principles. However the Retreat is open to any who are interested.

### TAUHEED: ITS PLACE IN THE HEALING

PROCESS - We will examine ayaat from Quran that clarify realities of Tauheed beyond 'Uluhiyyah' (Oneness of Allah) and show the importance of this concept in evaluation and treatment plans.

### AYAAT-UL-SHIFAA (VERSES OF HEALING) AND THE STRUCTURAL MODEL

THEY MANDATE - In this session we will examine these 6 Ayaat in and out of context and watch as a structural model for healing clearly emerges. Then we will examine what this means for the individual and the group.

Healing With Divine Qualities – Effects of using specific Attributes of Allah on the emotional and physical being.

### PERSONALITY OF THE HEALER:

#### PROPHETIC EXAMPLES FROM QURAN

AND...- There is a requirement of Allah ta'ala on all to whom He has assigned the role of healing. We will examine pertinent ayaat related to Prophets Muhammad, Eesaa, Dawood and Yusuf (as). We will also look a bit into Medicine of the Prophet and some examples from Ministry of Healing.

ETHICS – This session will be a discussion of healing substances and controversial practices using Quranic ayaat and principles derived from them. We will develop a set of Ethics formed by the group.

7 LAWS OF HEALTH + 1 – We will examine the well known basic laws of health – Air, Water, Sunlight, Exercise, Cleanliness, Rest and Diet – by going into Quran and take ayaat that describe our origins. From there we will move through each law giving valuable information from ayaat, hadith and wholistic sources. All will, insha Allah, have a greater appreciation for the essential needs of the human system.
